

**AltiVate**  
Extremity Solutions®

THE FIRST & ONLY  
FULLY CONVERTIBLE,  
INLAY SHORT STEM.

**IT ALL STEMS FROM SMARTER DESIGN**

The 135 degree neck shaft angle of the AltiVate Reverse® allows for a more anatomic humeral reconstruction in both anatomic and reverse shoulder arthroplasty, while the inlay stem allows for easy conversions without overstuffing the joint. With the addition of the short stem, the AltiVate Reverse is truly one system with expanded treatment solutions for your arthroplasty patients. Based on a clinically-proven design with 10-year minimum follow-up<sup>1</sup>, learn more about the AltiVate® Advantage.
